

4th-6th Grade Camp FAQ:

- 1. Why the change?** *We as camp directors and district children's leaders want to reimagine the 4th-6th grade camping program to create an amazing experience for our kids and allow our district volunteers and leaders shine!*
- 2. Was something broken with the previous two camps that is trying to be remedied through the combination?** *Absolutely not! Our heart and goal is to build a sustainable model of camping that will allow us to bring the best elements the previous two camps!*
- 3. My daughter always enjoyed the speaker who spoke to specific things for girls – will there be two speakers?** *Our hope is to bring in a team of two speakers that will be able to connect with the campers in the best way!*
- 4. How will chaperoning be handled?** *We are working on the housing arrangements but we are working to create an environment that is "all the boys are in this zone, all the girls in this zone" and stay in your zone! As with any camp, our campers will be placed in the charge of qualified Cabin Leaders and CIT's!*
- 5. My daughter looked forward to the special events that were more girl oriented – like the dinner, etc . What will happen to those events?** *There will be key elements from what past camps have built up so both the boys and girls still have those experiences that make camp-camp. Some of the things that the girls really enjoyed we are working to take up a level and bring into this camp- same for the boys.*
- 6. Will the recreational activities be combined?** *A lot of the activities will be based on cabin groups being together- which of course are gender based. We'll keep the same expectation we've had at boys & girls camps of "here is your cabin leader, stay with your cabin."*
- 7. Will they all eat together at meals or still sit by cabin units?** *Spatially, some of the elements will be for the whole camp at the same time (like meal times)- just how the campground is structured and we can facilitate a group. So for meal times, think, boy cabins are at these tables, girl camps are at these tables, around one another but not necessarily "together."*
